To determine the 2020 Vincentric Best CPO Value in America Award winners, Vincentric conducted a statistical analysis to reveal which vehicles had lower than expected ownership cost given their market segment and price. Vincentric analyzed over 15,000 vehicle configurations using eight cost factors: depreciation, fees and taxes, financing, fuel, insurance, maintenance, opportunity cost and repairs. The costs were measured after incorporating the specific CPO warranty offered by the manufacturer while also applying mileage requirements necessary to be authorized as an OEM CPO vehicle. Each CPO vehicle was evaluated in all 50 states plus Washington DC, with the assumption that each would be driven 15,000 miles annually over five years.
