- Subaru named Top Mainstream Brand for the seventh time

Camden, N.J., Nov 27, 2018 - Subaru of America, Inc. announced today it has been honored with the "Top Mainstream Brand" Residual Value Award from ALG, the analytics division of TrueCar, Inc. (NASDAQ: [TRUE](#)) and the industry benchmark for projecting future vehicle values and depreciation data. This is the seventh time and fourth consecutive year Subaru has been recognized with this top honor. This year, Subaru earned a total of six ALG awards, with five models topping their respective segments.

- Subaru Impreza – Best Compact Car
- Subaru WRX – Best Sports Car
- Subaru Forester – Best Compact Utility Car
- Subaru Outback – Best Midsize Utility 2nd Row Seating
- Subaru Crosstrek – Best Subcompact Utility

“We are thrilled to once again be recognized by ALG as the 2019 Top Mainstream Brand for Residual Value and earn accolades for our vehicles across numerous market segments,” said Thomas J. Doll, President and CEO, Subaru of America, Inc. “At Subaru, we take immense pride in the lasting value of our vehicles and are humbled by the trust drivers instill in our brand to transport their families safely, and for years to come.”

The annual ALG Residual Value Awards honor the vehicles and brands that are expected to retain the highest percentage of their original price after a conventional three-year period. Earning six awards this year, the overall total of ALG Residual Value Awards for Subaru has increased to thirty-seven since 2010. Subaru was also named Top Mainstream Brand in 2010, 2011, 2012, 2015, 2016, 2017 and 2018.

“Industry leading residual value is just one of many reasons why Subaru tops the shopping list of well-informed buyers,” said Eric Lyman, Senior Vice President, ALG. “For 2019, Subaru will take home their 4th consecutive Mainstream Brand Residual Value Award (RVA), the inevitable result of a strong and balanced portfolio that finds Subaru besting the competition in five individual segments.”

Based on 2019 model year vehicles, ALG recognized 26 vehicles with segment awards, alongside two brands representing the Mainstream and Premium sectors of the industry. Winners are chosen through a careful analysis of each segment, historical vehicle performance and industry trends, while factoring in quality, production levels relative to demand, pricing and marketing strategies.
