Kelley Blue Book, the leading provider of new- and used-vehicle valuation and information, recognizes 2019 model-year vehicles for their projected retained value through the initial five-year ownership period. Since depreciation (or loss of value) is typically a car-buyer's primary expense during ownership, these awards, like all the KBB.com new- and used-vehicle information, are designed to help consumers make more informed car-buying decisions.

"We are thrilled to receive the 2019 Best Resale Value Award for Crosstrek, Legacy and Outback from Kelley Blue Book," said Thomas J. Doll, President and Chief Operating Officer, Subaru of America, Inc. "These awards reinforce our commitment to providing customers with vehicles made to the highest standards of safety, reliability, dependability and value."

Kelley Blue Book's Best Resale Value Awards are in their 17th year and are based on projections from the Kelley Blue Book Official Residual Value Guide. Kelley Blue Book Residual Values are established by experienced automotive analysts that review statistical models built upon millions of transactions. Vehicles that earn the highest five-year residual values, expressed as a percentage of their original Manufacturer's Suggested Retail Price (MSRP), are selected for these prestigious awards. Low-volume vehicles are excluded from award consideration, except in the electric, luxury, sports car and high-performance categories.
