- 91 consecutive months of yearly, month-over-month growth
- Best June ever for Outback and Ascent

Camden, N.J., Jul 2, 2019 - Subaru of America, Inc. today reported 61,511 vehicle sales for June 2019, a 2.8 percent increase over June 2018, and the best June sales in the history of the company. Subaru also sold a record 339,525 vehicles in the first half of 2019, a 1.2 percent increase compared with the same period last year.

June marked the 64th consecutive month of 40,000+ vehicle sales for the automaker. Outback and Ascent sales were no exception. Outback achieved its best June ever. Outback posted an 8.9 percent increase, while Forester posted a 5.7 percent increase over June 2018. In addition, 7,014 Ascent SUVs were delivered in June, marking one year since the versatile family hauler arrived in the U.S.

“We are humbled by the hard work of our retailers, employees and distribution partners this June. It is because of their tireless effort that we can report our 91st month of yearly, month-over-month sales increases and set another half-year record,” said Thomas J. Welton, CEO of Subaru of America, Inc. “The Ascent has been a tremendous success for our brand. The 3-row SUV offers the utility and space that customers are seeking and fills a void that had been missing from our line-up for many years.”

“In June, we continued to experience healthy demand thanks in part to Subaru’s combination of value, safety, functionality and performance across all of our vehicles,” said Jeff Walters, Senior President of Sales. “In an increasingly competitive marketplace, we are pleased to be delivering strong results and another month of sales increases.”
