## STATEMENT ON SUBARU STI

Camden, N.J., Mar 11, 2022 - As the automotive marketplace continues to move towards electrification, Subaru is focused on how our future sports and performance cars should evolve to meet the needs of the changing marketplace and the regulations and requirements for greenhouse gasses (GHG), zero emissions vehicles (ZEV), and Corporate Average Fuel Economy (CAFÉ).

As part of that effort, Subaru Corporation is exploring opportunities for the next generation Subaru WRX STI, including electrification. In the meantime, a next generation internal combustion engine WRX STI will not be produced based upon the new WRX platform.

The Subaru WRX STI and the STI brand represent the zenith of Subaru's performance vehicles exemplifying Subaru's unique DNA and rally heritage. As we look to the future, we also look forward to incorporating the essence of STI into our next generation of vehicles.

### About Subaru of America, Inc.

[Subaru of America, Inc.](#) (SOA) is a wholly owned subsidiary of [Subaru Corporation](#) of Japan. Headquartered at a zero-landfill office in Camden, N.J., the company markets and distributes Subaru vehicles, parts and accessories through a network of more than 630 retailers across the United States. All Subaru products are manufactured in zero-landfill plants and [Subaru of Indiana Automotive, Inc.](#) is the only U.S. automobile manufacturing plant to be designated a backyard wildlife habitat by the National Wildlife Federation. SOA is guided by the [Subaru Love Promise](#), which is the company's vision to show love and respect to everyone, and to support its communities and customers nationwide. Over the past 20 years, SOA and the SOA Foundation have donated more than \$270 million to causes the Subaru family cares about, and its employees have logged nearly 78,000 volunteer hours. As a company, Subaru believes it is important to do its part in making a positive impact in the world because it is the right thing to do.
