HIPCAMP AND SUBARU PARTNER TO LAUNCH 10 CLASSIC AMERICAN ROADTRIP ROUTES

Resource highlights EV charging and campsite locations encouraging adventure and exploration

Camden, N.J., Jul 17, 2024 - [Hipcamp](#), the world's leading campsite booking company, in partnership with Subaru of America, Inc. today announced a resource of 10 electric vehicle-ready road trips across the United States. From easy access EV charging to pet-friendly and family stays, road-trippers can filter for options along each route to find the best camping location that fits their needs.

The new feature is the first road trip resource provided by Hipcamp and showcases routes located across the country. The routes, which include classics like Route 66, Texas's Chihuahuan Desert, and the California coast, can be explored in their entirety or in shorter segments.

Thanks to Hipcamp's ever-growing community of hosts and the increase in EV infrastructure, more than 80% of Hipcamp sites are now located near publicly accessible EV stations. Campers can easily use Hipcamp's EV charging station map layer to best plan their stops.

Alyssa Ravasio, Hipcamp Founder and CEO: "Our mission at Hipcamp is to get more people outside. With our new collection of routes that prioritize EV-charging opportunities, we hope to make it simpler than ever to plan your next outdoor adventure.
